Our catalogue brings together a carefully curated selection of pieces, textiles and decorative details designed to dress spaces with harmony, character and sophistication. It is not simply about combining objects, but about creating atmospheres that accompany each moment and elevate it.

Below, we present a selection that allows you to choose between fully composed tables, ready for setup and adaptable with a bespoke floral proposal; or the option to select individual pieces, with our guidance to shape your own concept.

The background image shows an outdoor dining area at dusk. A table is elegantly set with white plates, glassware, and folded napkins. In the center of the table is a large, rectangular white planter filled with lush greenery and tall stalks of purple lavender. Smaller sprigs of lavender are placed as centerpieces on individual place settings. In the background, a warm fire burns in a stone fireplace, and a lantern adds to the ambient lighting. The overall mood is sophisticated and serene.

TABLES COMPOSITIONS

Complete proposals, seamlessly delivered.

Tableware, glassware, linens, furniture and décor in perfect harmony.

A bespoke floral composition designed for each event

Let AMANAI set the table, just sit back and enjoy the experience

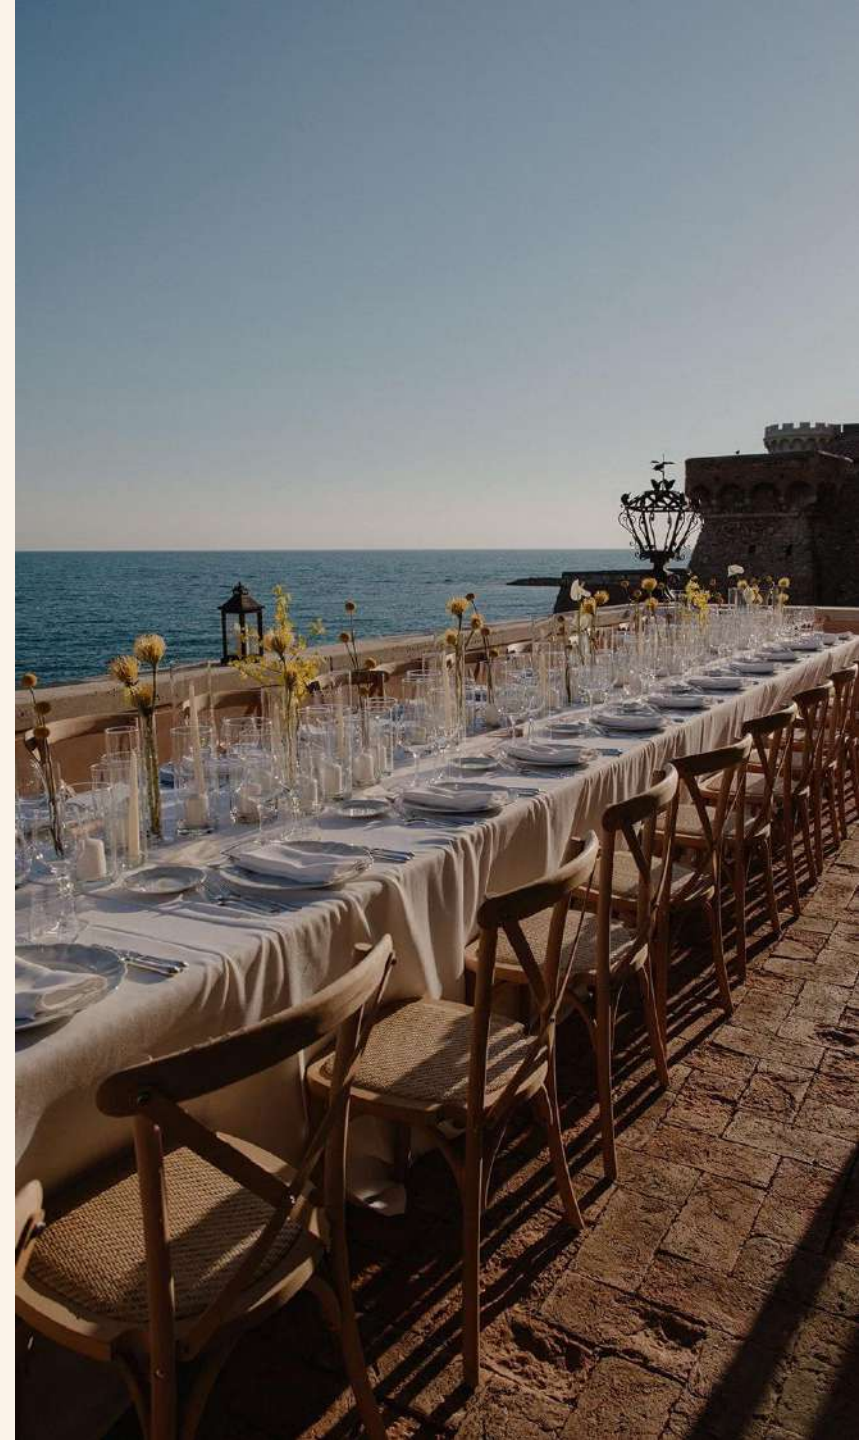

LIA TABLE

Sweet, delicate, and with a romantic soul. This table is designed for those seeking an intimate celebration filled with soft details: fresh flowers, enveloping textures, and a color palette that inspires calm. Created to let yourself be carried away by the moment

CLASSIC TABLE

A table where light and subtlety take center stage. The transparency of glass, the purity of candles, and the delicacy of golden-toned florals create a light and harmonious composition, designed to blend seamlessly with its surroundings without losing presence

PICNIC FLORAL

Fresh and luminous table with an elegant picnic essence. Floral arrangements in pink and coral tones, combined with soft textiles and natural fibers that bring warmth and balance.

As a distinctive detail, natural amethyst napkin rings elevate each place setting with an exclusive and sophisticated touch.

COBALT TABLE

This table evokes the coastal breeze of southern Italy, where colors speak of joy, design, and sophistication. The interplay between yellow and blue tones is both bold and balanced, highlighting details of handcrafted ceramics, iridescent glass, and natural fruit arrangements with an artistic touch.

ROYAL TABLE

A table that channels energy and presence. The deep black tablecloth sets an intense canvas where selenite towers rise like luminous mineral sculptures, pure and radiant. Golden rings hold napkins adorned with selenite and black tourmaline crystals, a powerful combination symbolizing protection, clarity and balance

TERRA TABLE

Muted terracotta, coral-toned flowers, and deep wine-colored glassware. A table that conveys presence without excess: pure forms, noble materials, and serene balance, with sculpted stone candlesticks adding height and character. Designed for those who value essential beauty and bold design.

ECLIPSE TABLE

Designed for the moment when the light fades and everything changes, Eclipse is a table that envelops: deep black, golden reflections, and a composition that evokes intimacy, stillness and design. A table where elegance whispers and the atmosphere says it all, no words needed.

VOLTERRA TABLE

A table that celebrates the joy of the Mediterranean with bold colors and a fresh aesthetic. It combines handcrafted ceramics, cobalt blue glassware, and natural accents like fresh tomatoes and exotic flowers.
